<sup>1</sup> As of August 10, 2004, the cash assets are earning interest at a rate of official British Bankers Association One-month LIBOR minus 0.08%.

<sup>2</sup> Valuation provided by former investment managers, Ellington Management Group, LLC. As no revenue has been received on any of the CBOs since February 2004 and per our discussions with Ellington Management Group, LLC, to be conservative we have written down the value of the CBOs to zero. However it is expected that upon liquidation, these securities may have some value (which is not currently determinable).

<sup>3</sup> Certain professional fees incurred by the Feeder Funds have been paid out of the assets of the Master Fund. Prior to the distribution of funds, these expenses will be apportioned to the respective Feeder Funds, as shown above.

<sup>4</sup> The percentage of participating shares is based on the historical valuation of the Master Fund. Provided that the Court sanctions the average distribution methodology, the shares of the Feeder Funds in the Master Fund will be recalculated which will lead to adjustments in the Feeder Funds' percentage shareholdings.
